14 June 2023 / 17:00-18:30 CEST

Exploiting the Opportunities of Energy Data Platforms

Session Moderator: Dr. Fenareti Lampathaki (Technical Director, Suite5 Data Intelligence Solutions) – SYNERGY Technical Coordinator

EUHUBS4DATA

BDV BIG DATA VALUE ASSOCIATION

Scope

To provide insights into the opportunities opened up from Energy Data Platforms from a technical and a business perspective

- Identifying the experiences and challenges on energy data platforms with regard to technology development and large-scale demonstrations across Europe.
- Elaborating on the data-driven business models for the relevant data value chain stakeholders and the business opportunities for energy data initiatives.
- Providing a hands-on perspective/experience on the platforms, tools and components that have been already developed in the context of different, related projects.
- Discussing the lessons learnt and recommendations provided to the data spaces, especially in the energy sector
