Advanced Digital Skills in Data and AI: current demand, forecasted scenarios and expected gap

EUHUBS4DATA

BDV BIG DATA VALUE ASSOCIATION

Welcome to SKILLS

Ernestina Menasalvas and Brendan Rowan

Co-leaders of the TF Skills of BDVA-DAIRO

About the BDVA Skills Task Force

The voice of AI and Robotics skills demand across Europe.

It seeks to bridge the gap between technology development, the generated skills demands and routes to developing the talent required to make the adoption of the next-generation of federated intelligence and data systems, data spaces and robotics technologies on a large scale.

Today’s Objectives

- Objectives
  - Present LEADS research on ADS current and future demands, relevant for BDVA
  - Present Porini SRL use case of niche ADS formation through customized programmes
  - Present engagement strategies between academia and skilling needs
- Outcome
  - Analysis of learning methods, and learning providers, an understanding of the context in which those methods and provides can interact to produce the demanded professionals.

AGENDA

14:00 Welcome

Ernestina Menasalvas, UPM, Brendan Rowan, BluSpecs

14:05 Context setting: An overview of Leads Projec

Mantin Robles. LEADS and BluSpecs

14:15 A success story

Luca Malinervo. Porimi

Matteo Beshara. Porini

14:30 Learning methods and learning paths

Javier Segovia. Universidad Politécnica de Madrid. EIT-Digital

14:40 Workshop

14:55 Wrap-up

LEADS Project

- Martín Robles. BluSpecs

Success Story

- Luca Malinervo
- Matteo Beshara

Academia/providers engagement

- Javier Segovia. Universidad Politécnica de Madrid
