Hello!

Danijel Pavlica

Project Manager

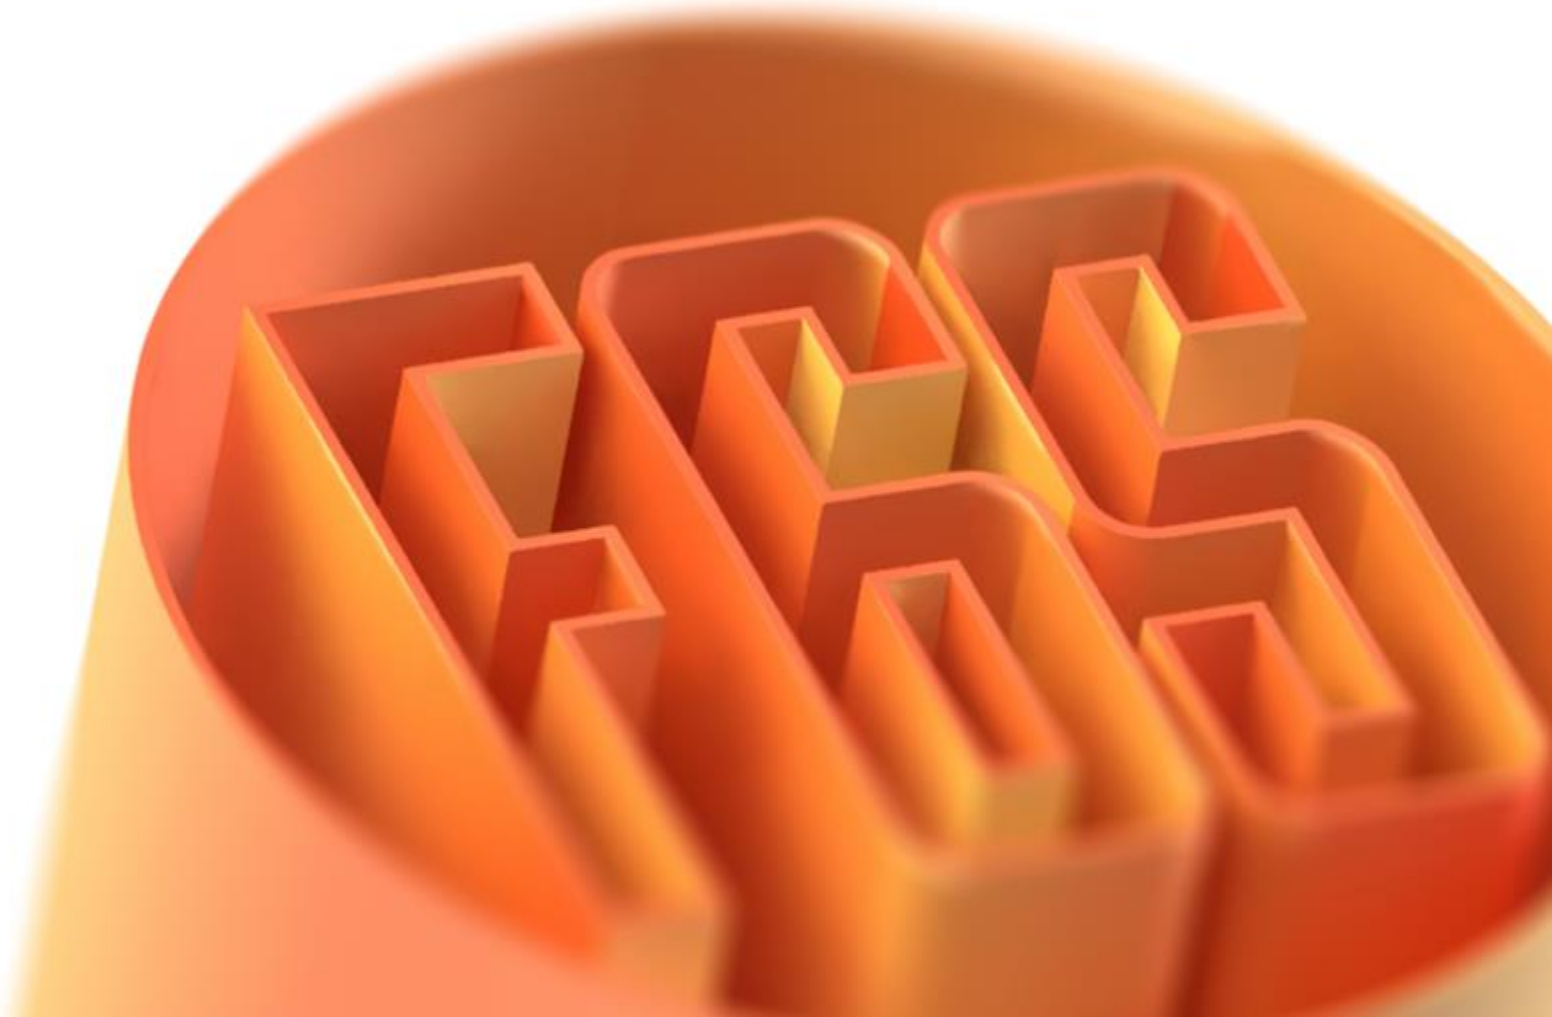
F6S Innovation

Special Appreciation

Alrun Aline Hauke
DLR Projektträger

Ivana Ilić
F6S Innovation

Innovation

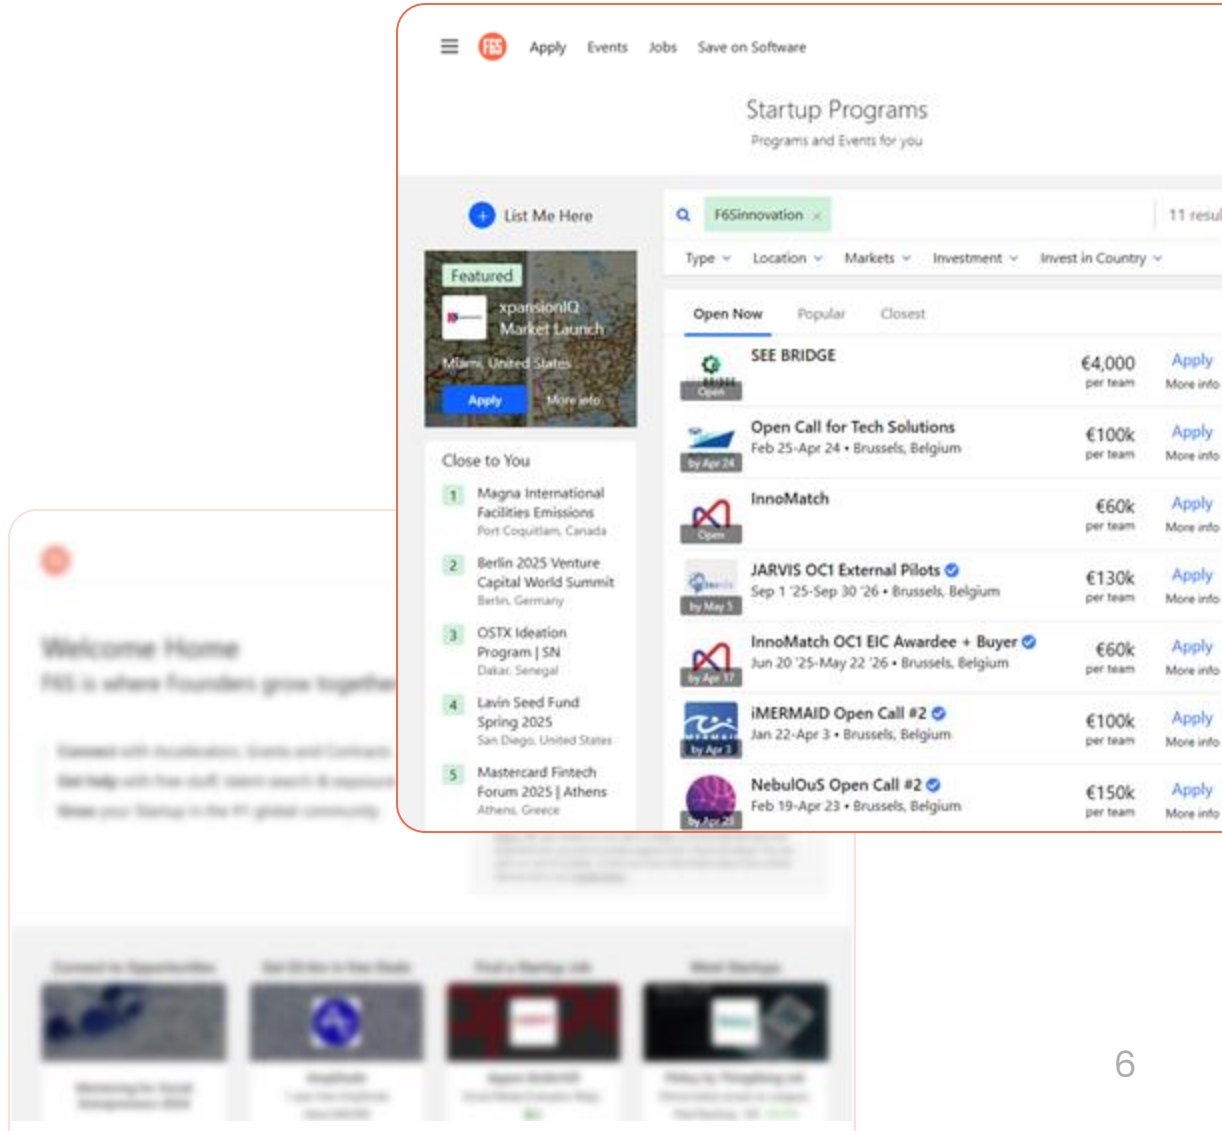


Mission

F6S helps founders and startups grow to solve the world's pressing social, economic, environmental, sustainability and innovation problems.

The world's largest Corporate Innovation Community, **connecting 5.5m+ users.**

[founders & startups, corporates, RTOs, researchers...]



F6S Innovation

Driving Technology growth through public funding programmes

- F6S Innovation is part of F6S Network group
- We partner with European entities to deliver high quality and impactful projects.
- F6S assets:
  - Team experience & knowledge
  - F6S platform & community
  - EU partnership & international networks
  - Sector driven synergy/cluster channels
  - 1 stop shop to build EU projects branding and communication campaigns
  - Experience with EU workgroups and events

DataPACT Addressed Challenges

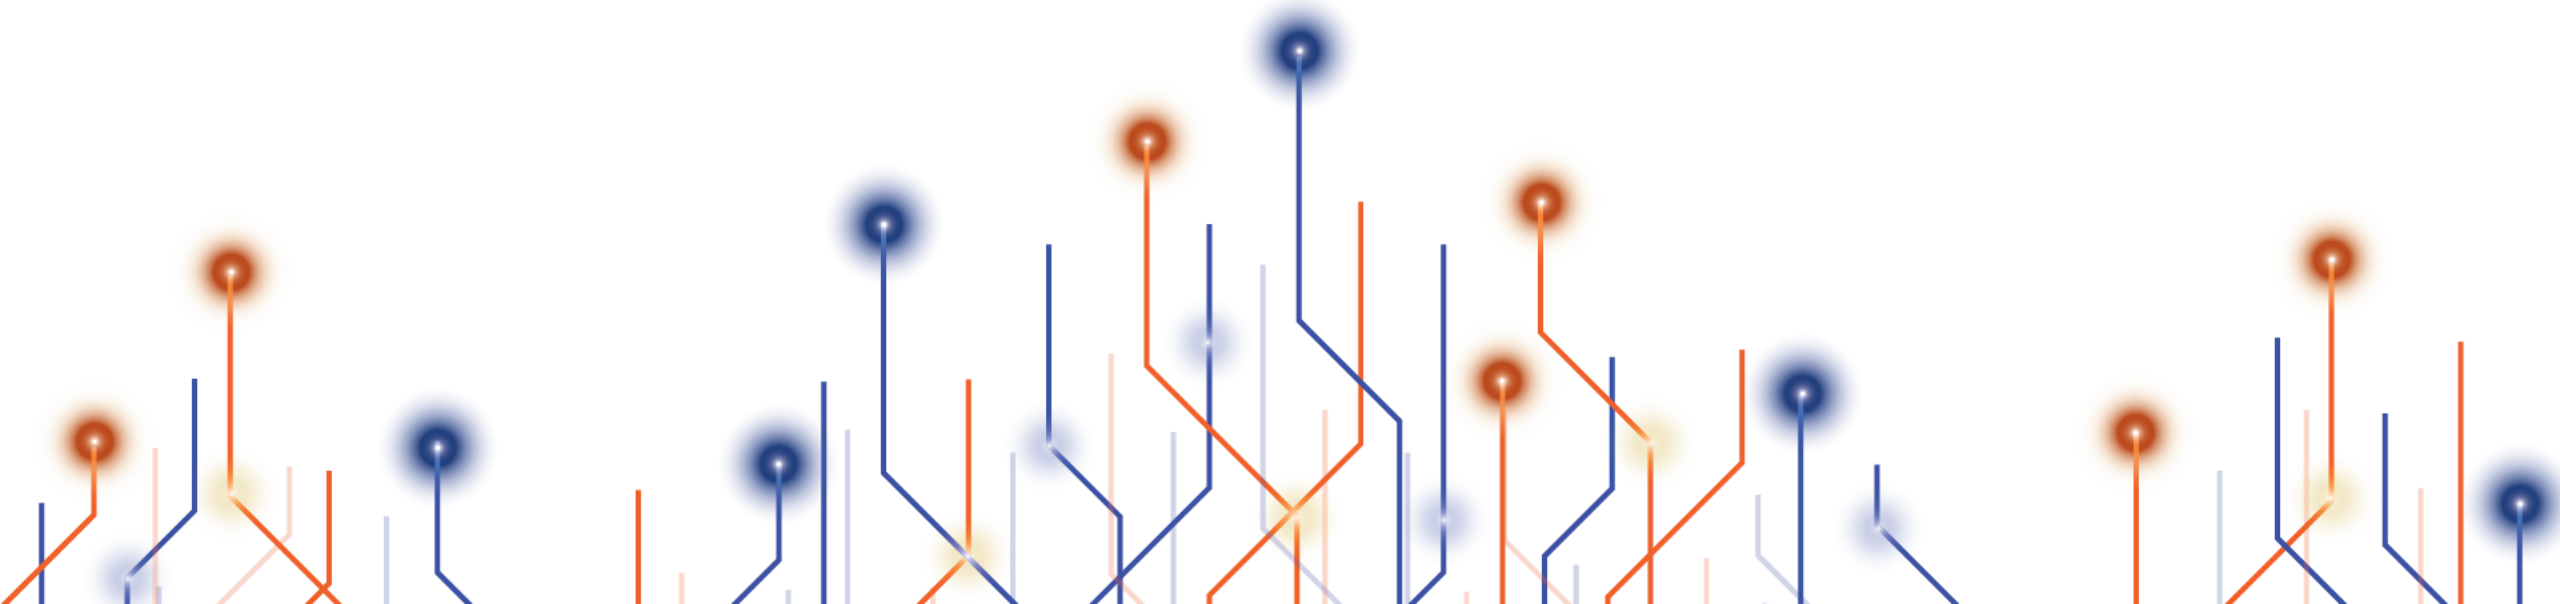

Table 1: Overview of EU Legislations in the Digital Sector

Applicable law	Published in the Official Journal of the European Union.
In negotation	Proposal by the European Commission entered the legislative process.
Planed initiative	Mentioned by the European Commission as potential legislative initiative.

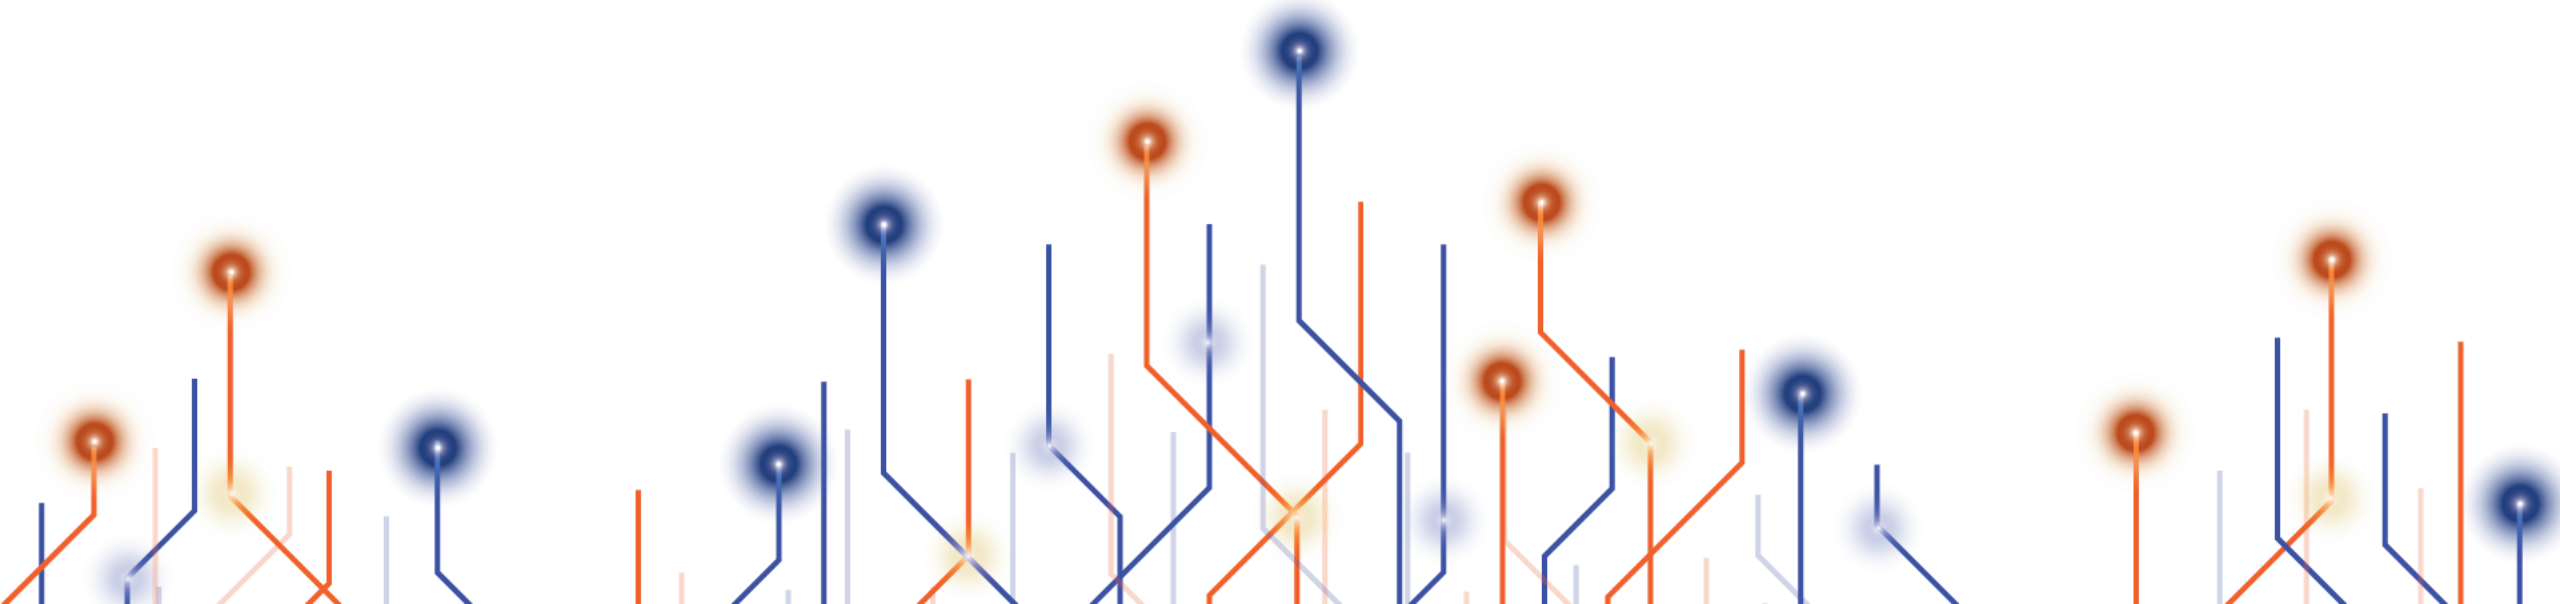
Research & Innovation	Industrial Policy	Connectivity	Data & Privacy	IPR	Cybersecurity	Law Enforcement	Trust & Safety	E-commerce & Consumer Protection	Competition	Media	Finance
Digital Europe Programme Regulation, (EU) 2021/694	Recovery and Resilience Facility Regulation, (EU) 2021/241	Frequency Bands Directive, (EEC) 1987/372	ePrivacy Directive, (EC)2002/58, 2017/0003(COD)	Database Directive, (EC) 1996/9	Regulation for a Cybersecurity Act, (EU) 2019/881, 2023/0108(COD)	Law Enforcement Directive, (EU) 2016/680	Product Liability Directive (PLD), (EEC) 1985/374, 2022/0302(COD)	Unfair Contract Terms Directive (UCTD), (EEC) 1993/13	EC Merger regulation, (EC) 2004/139	Satellite and Cable Directive, (EEC) 1993/83	Common VAT system, (EC) 2006/112, 2022/0407(CNS)
Horizon Europe Regulation, (EU) 2021/695, (EU) 2021/764	InvestEU Programme Regulation, (EU) 2021/523	Radio Spectrum Decision, (EC) 2002/676	European Statistics, (EC) 2009/223, 2023/0237(COD)	Community Design Directive, (EC) 2002/6, 2022/0391(COD)	Regulation to establish a European Cybersecurity Competence Centre, (EU) 2021/887	Directive on combating fraud and counterfeiting of non-cash means of payment, (EU) 2019/713	Toys Regulation, (EC) 2009/48, 2023/0290(COD)	Price Indication Directive, (EC) 1998/6	Technology Transfer Block Exemption, (EU) 2014/316	Information Society Directive, (EC) 2001/29	Administrative cooperation in the field of taxation, (EU) 2011/16
Regulation on a pilot regime for distributed ledger technology, (EU) 2022/858	Connecting Europe Facility Regulation, (EU) 2021/1153	Open Internet Access Regulation, (EU) 2015/2120	General Data Protection Regulation (GDPR), (EU) 2016/679	Enforcement Directive (IPR), (EC) 2004/48	NIS 2 Directive, (EU) 2022/2555	Regulation on interoperability between EU information systems in the field of borders and visa, (EU) 2019/817	European Standardization Regulation, (EU) 2012/1025	E-commerce Directive, (EC) 2000/31	Company Law Directive, (EU) 2017/1132, 2023/0089(COD)	Audio-visual Media Services Directive (AVMSD), (EU) 2010/13	Payment Service Directive 2 (PSD2), (EU) 2015/2366, 2023/0209(COD)
	Regulation on High Performance Computing Joint Undertaking, (EU) 2021/1173, 2024/0016(CNS)	European Electronic Communications Code Directive (EECC), (EU) 2018/1972	Regulation to protect personal data processed by EU institutions, bodies, offices and agencies, (EU) 2018/1725	Directive on the protection of trade secrets, (EU) 2016/943	Cybersecurity Regulation, (EU) 2023/2841	Regulation on terrorist content online, (EU) 2021/784	Radio Equipment Directive (RED), (EU) 2014/53	Unfair Commercial Practices Directive (UCPD), (EC) 2005/29	Market Surveillance Regulation, (EU) 2019/1020	Portability Regulation, (EU) 2017/1128	Digital Operational Resilience Act (DORA Regulation), (EU) 2022/2554
	Regulation on Joint Undertakings under Horizon Europe, (EU) 2021/2085, 2022/0033(NLE)	.eu top-level domain Regulation, (EU) 2019/517	Regulation on the free flow of non-personal data, (EU) 2018/1807	Design Directive, 2022/0392(COD)	Information Security Regulation, 2022/0084(COD)	Temporary CSAM Regulation, (EU) 2021/1232, 2022/0155(COD)	eIDAS Regulation (European Digital Identity Framework), (EU) 2014/910	Directive on Consumer Rights (CRD), (EU) 2011/83	P2B Regulation, (EU) 2019/1150	Satellite and Cable II Directive, (EU) 2019/789	Crypto-assets Regulation (MiCA), (EU) 2023/1114
	Decision on a path to the Digital Decade, (EU) 2022/2481	Roaming Regulation, (EU) 2022/612	Open Data Directive (PSI), (EU) 2019/1024	Compulsory licensing of patents, 2023/0129(COD)	Cyber Resilience Act, 2022/0272(COD)	E-evidence Regulation, (EU) 2023/1543	Regulation for a Single Digital Gateway, (EU) 2018/1724	e-invoicing Directive, (EU) 2014/55	Single Market Programme, (EU) 2021/690	Copyright Directive, (EU) 2019/790	Financial Data Access Regulation, 2023/0205 (COD)
	European Chips Act (Regulation), (EU) 2023/1781	Union Secure Connectivity Programme, (EU) 2023/588	Data Governance Act (DGA Regulation), (EU) 2022/868	Standard essential patents, 2023/0133(COD)	Cyber Solidarity Act (Regulation), 2023/0109(COD)	Digitalisation of cross-border judicial cooperation, (EU) 2023/2844	General Product Safety Regulation, (EU) 2023/988	Regulation on cooperation for the enforcement of consumer protection laws, (EU) 2017/2394	Vertical Block Exemption Regulation (VBER), (EU) 2022/720	European Media Freedom Act, (EU) 2024/1083	Payment Services Regulation, 2023/0210(COD)
	Establishing the Strategic Technologies for Europe Platform (STEP), (EU) 2024/795	Gigabit Infrastructure Act, (EU) 2024/1309	European Data Act (Regulation), (EU) 2023/2854			Directive on combating violence against women, 2022/0066(COD)	Machinery Regulation, (EU) 2023/1230	Geo-Blocking Regulation, (EU) 2018/302	Digital Market Act (DMA Regulation), (EU) 2022/1925	Remuneration of musicians from third countries for recorded music played in the EU	Digital euro, 2023/0212 (COD)
	European critical raw materials act (Regulation), (EU) 2024/1252	New radio spectrum policy programme (RSPP 2.0)	Interoperable Europe Act, (EU) 2024/903			Directive for combating sexual abuse and child sexual abuse material, 2024/0035(COD)	AI Act (Regulation), 2021/0106(COD)	Digital content Directive, (EU) 2019/770	Regulation on distortive foreign subsidies, (EU) 2022/2560		Regulation on combating late payment, 2023/0323(COD)
	Net Zero Industry Act, 2023/0081(COD)	Digital Networks Act	Regulation on data collection for short-term rental, (EU) 2024/1028			Digitalization of travel documents	Eco-design Regulation, 2022/0095(COD)	Directive on certain aspects concerning contracts for the sale of goods, (EU) 2019/771	Horizontal Block Exemption Regulations (HBER), (EU) 2023/1066, (EU) 2023/1067		
	EU Space Law		European Health Data Space (Regulation), 2022/0140(COD)				AI Liability Directive, 2022/0303(COD)	Digital Services Act (DSA Regulation), (EU) 2022/2065	Platform Work Directive, 2021/0414(COD)		
			Harmonisation of GDPR enforcement procedures, 2023/0202(COD)					Political Advertising Regulation, (EU) 2024/900	Single Market Emergency Instrument (SMEI), 2022/0278(COD)		
			Access to vehicle data, functions and resources					Right to repair Directive, 2023/0083(COD)			
			GreenData4all					Consumer protection: strengthened enforcement cooperation			

- I don't know which laws apply to me!
- Carrying out my mandatory reporting & notification obligations is labor-intensive!
- I think my data sharing contract might be unfair!
- When is data sharing compliant?
- …

Compliance burden

- **10s** of distinct EU regulations
- Multiple **national supervisory authorities**
- **Audits:** AI, data protection, cybersecurity and consumer law
- Multiple **conformity assessments for AI models** and **data processing pipelines**

Concrete impact DataPACT aims to generate



DataPACT Impacts

Technical

- Artefact families:
  - *Compliance Toolbox*
  - *Compliance Framework*
  - *Compliance-aware Data/AI Pipeline Toolbox*
- Capabilities:
  - Policy enforcement
  - Consent management
  - Traceability
  - Bias/fairness checks
  - Explainability
  - LLM assessment
  - Energy reporting

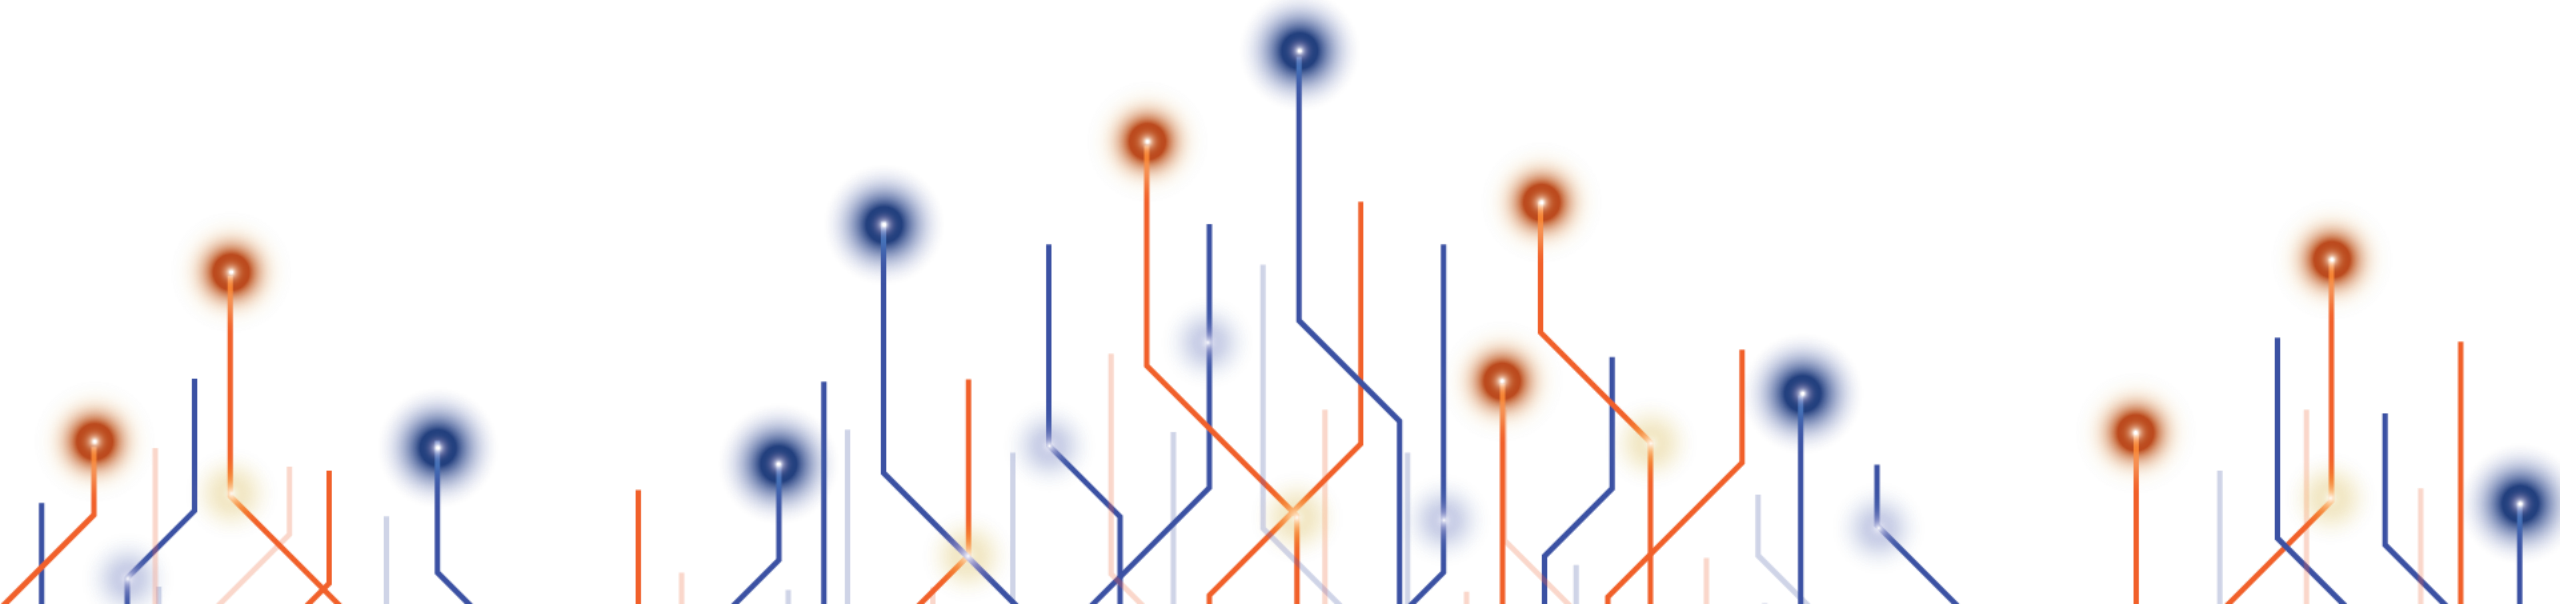
Industrial

- Automated, cost-effective compliance for orgs
- Shorter time-to-market for compliant data/AI solutions
- Validation across concrete domains

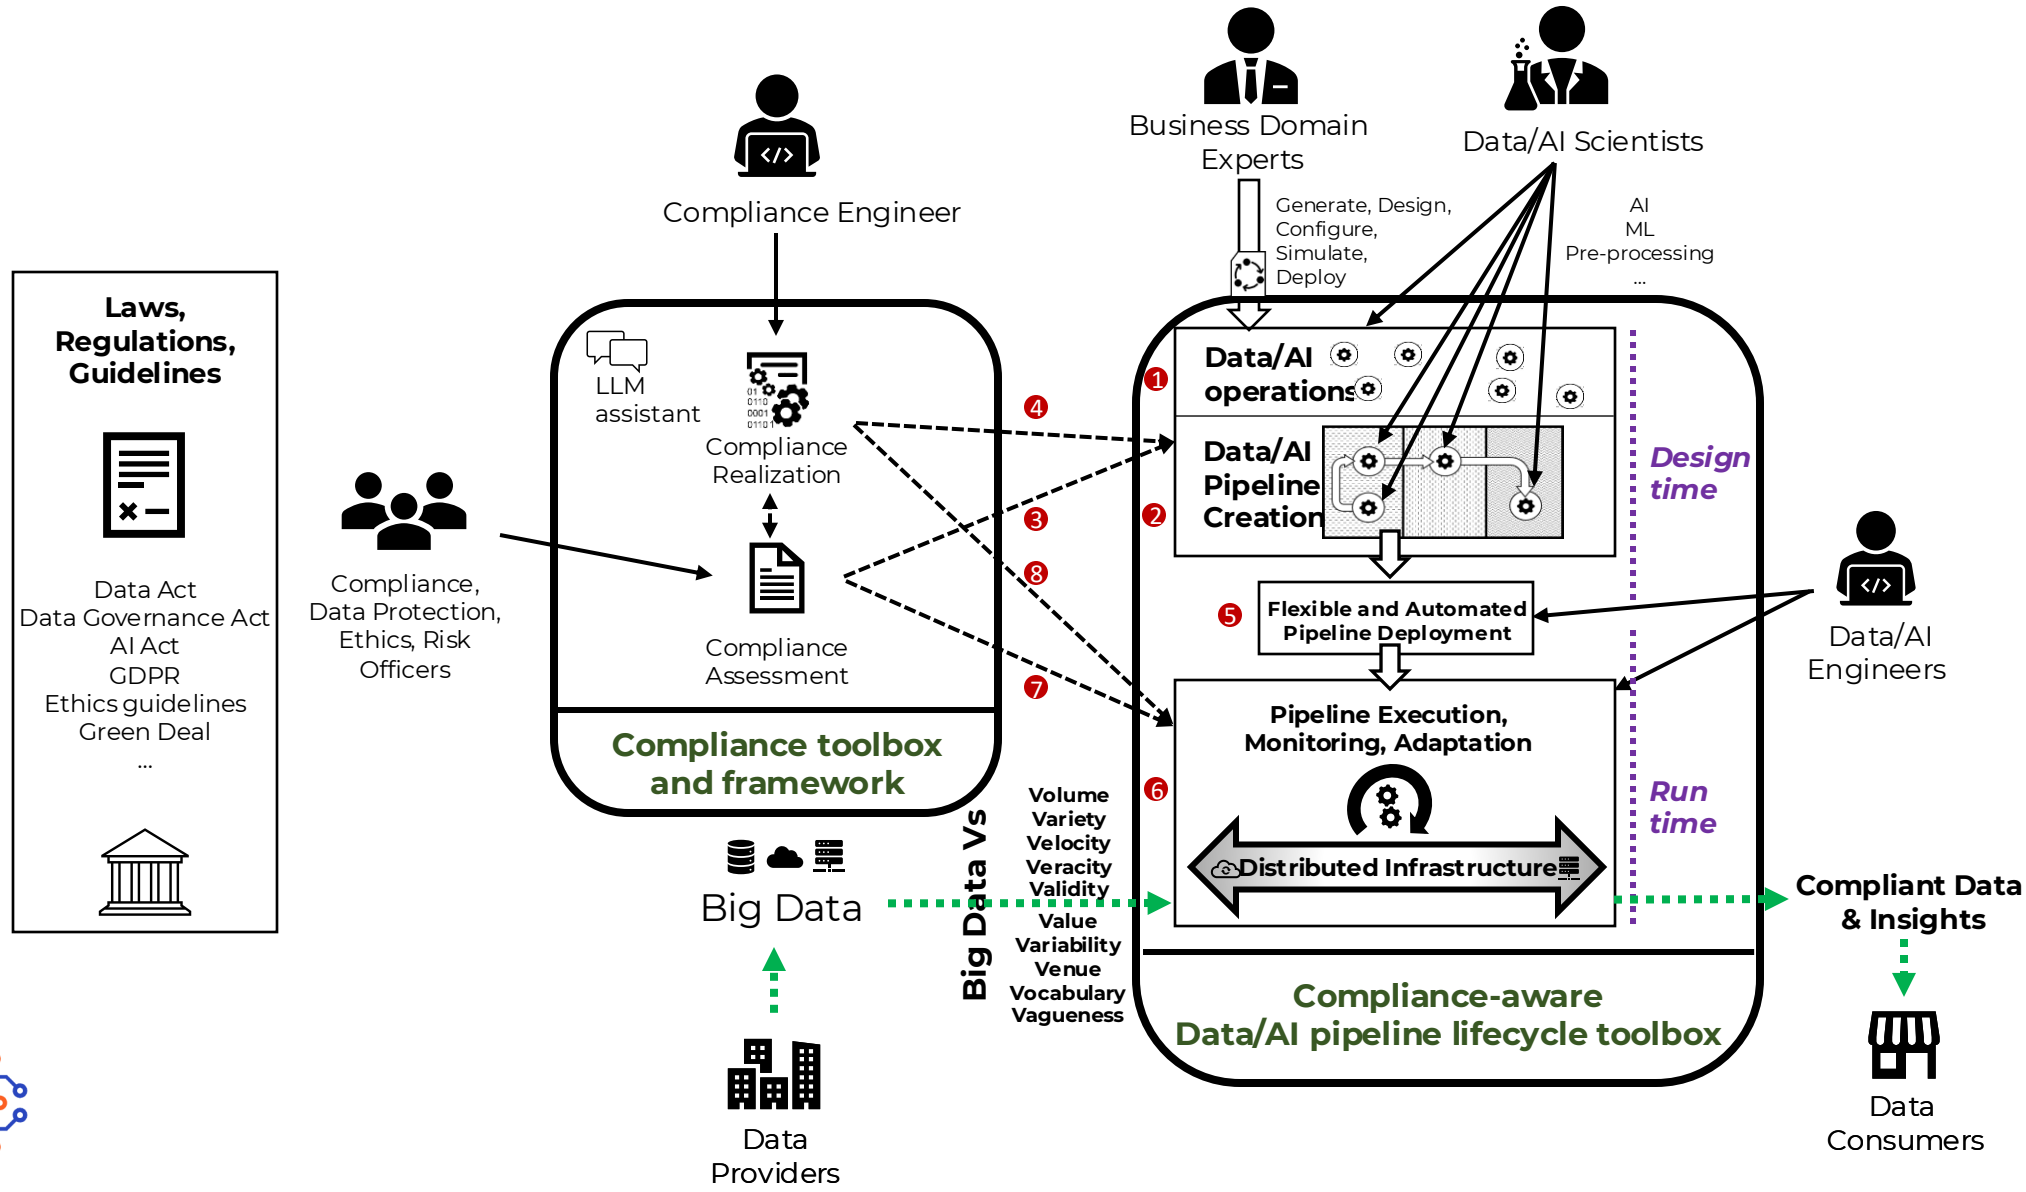
Societal

- Embed privacy, transparency, non-discrimination, human oversight and environmental responsibility into pipelines
- Support stakeholders in Data/AI teams

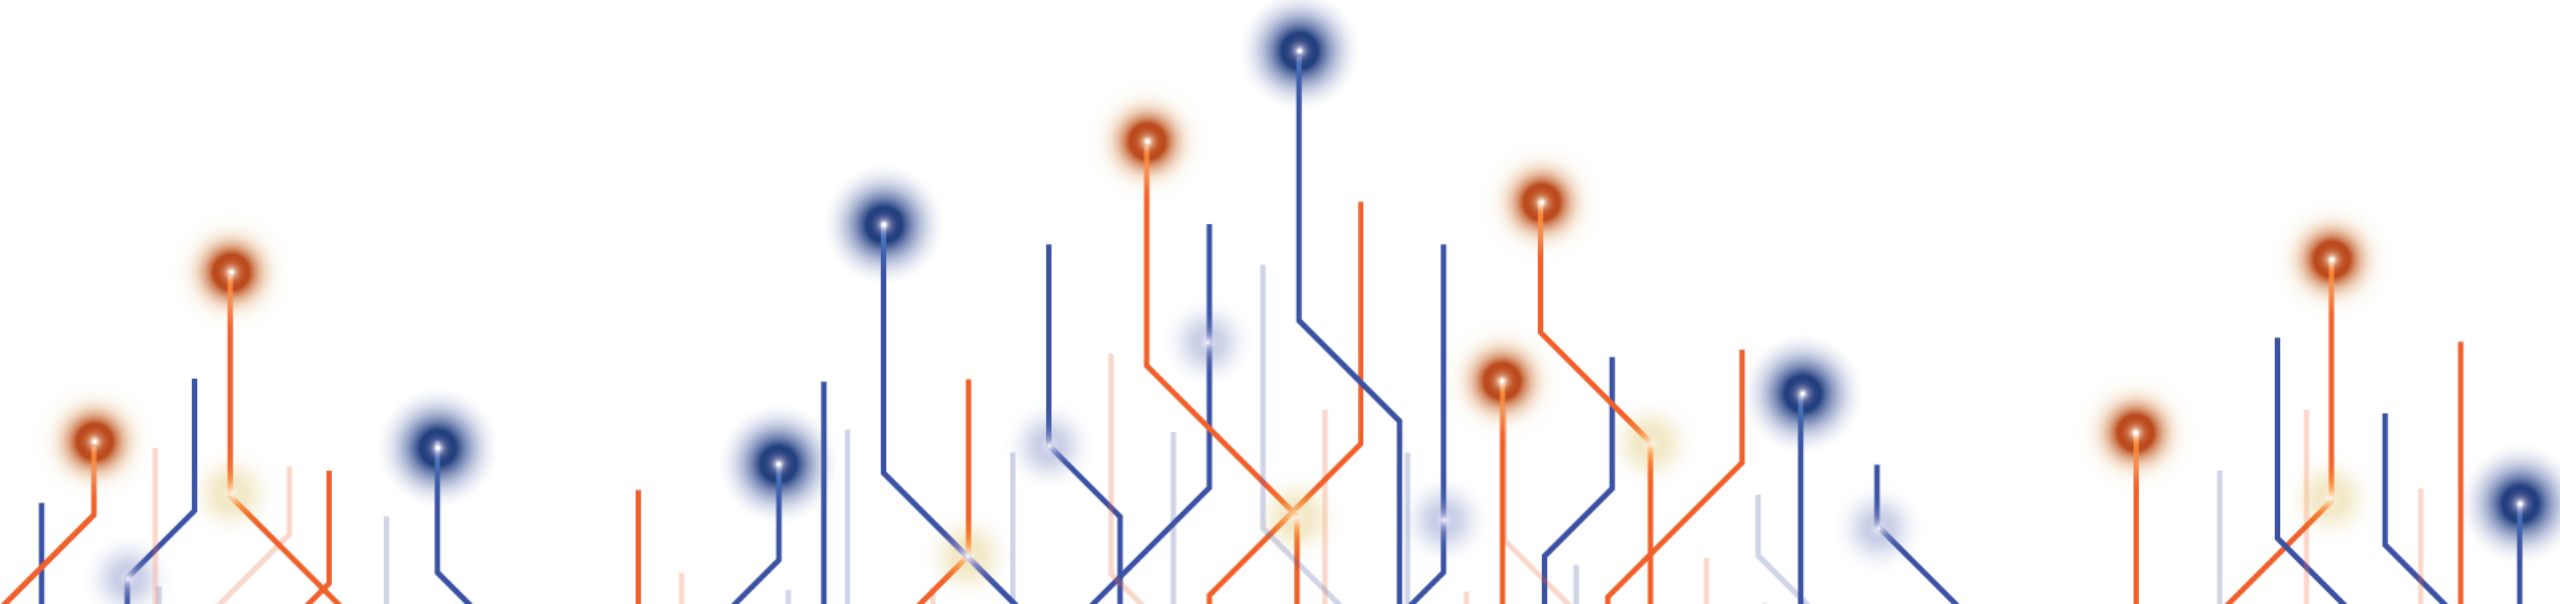
DataPACT Ecosystem for Compliance-by-Design Data/AI Pipelines



DataPACT Ecosystem for Compliance-by-Design Data/AI Pipelines



DataPACT Engagement



Engaging with DataPACT

- **Data/AI developers and MLOps/DataOps teams**: use the catalogue as an entry point
- **Compliance, legal, DPO and risk teams:** translate recurring legal requirements into machine-processable assets (contact us)
- **Data-space operators and public-sector organisations:** reuse DataPACT concepts for compliant data-sharing workflows, connector compliance assessment, public-data release processes and governance of restricted datasets

The Challenge: Sensitive Data Locked Away

Regulatory Fragmentation

GDPR + 27 national laws create incompatible rules for cross-border data sharing in healthcare, government & agrifood

Data Silos Block AI

High-value datasets sit unused — ML models need data across institutions, but privacy concerns prevent sharing

No Trusted Infrastructure

EOSC lacks compliant, end-to-end secure environments enabling public authorities & hospitals to share sensitive data

EU Aligned with: EU Data Spaces · EOSC Interoperability Framework · European Health Data Space · Data Governance Act

TITAN's Answer: A Confidential EOSC Platform

Three innovation pillars powering secure, GDPR-compliant data collaboration at European scale:

01

Confidential Computing (TEEs)

- Hardware-encrypted secure enclaves (AMD SEV-SNP, Intel TDX, SGX)
- Data protected in use — invisible even to cloud operators
- Remote attestation: cryptographic proof of security
- Confidential GPU support for ML workloads

02

Scalable Data Anonymisation

- Differential Privacy, k-anonymity, GAN synthetic data
- Secure Multi-Party Computation (MPC) & ZK-SNARKs
- GDPR-validated anonymisation risk assessment
- Homomorphic Secret Sharing (HSS)

03

Blockchain Access Control

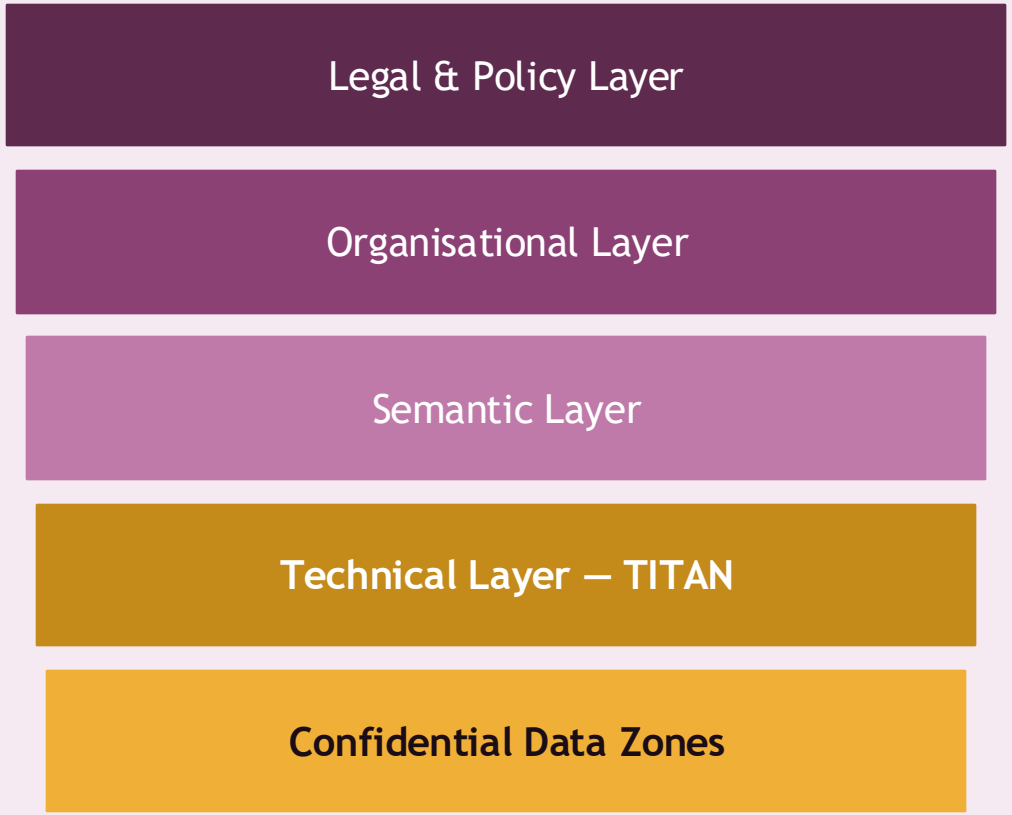
- Decentralised Identities (DIDs) & Verifiable Credentials
- Self-Sovereign Identity with fine-grained policies
- Immutable audit trail via Hyperledger Fabric
- TEE-based smart contracts (EVM / CosmWasm)

Supporting European Data Spaces

TITAN as Data Space Infrastructure

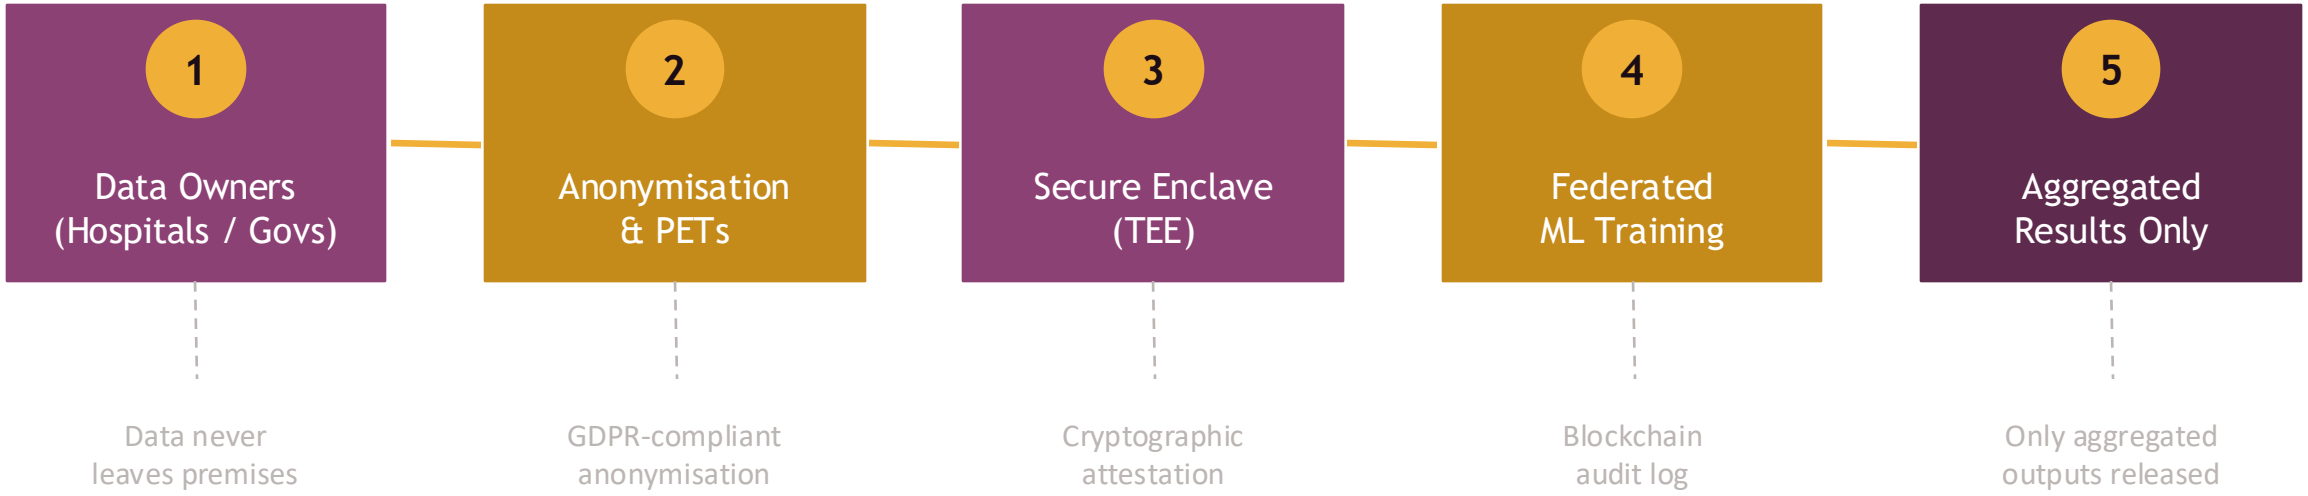
1. Compatible with EOSC Interoperability Framework on all four layers: technical, semantic, organisational, and legal
2. Creates EOSC Public Authority Government Zones — confidential enclaves for regional & national data owners
3. Aligned with Gaia-X, IDSA, and the Data Spaces Support Centre (DSSC) open building blocks
4. Publishes results in EOSC Catalogue; federated FAIR data workflows proven in two cross-border pilots
5. Supports EU Health Data Space & European Agricultural Data Space exchange goals

EOSC Interoperability Framework



Confidential AI/ML Pipeline

How TITAN enables secure collaborative machine learning without exposing raw data:



AMD SEV-SNP / Intel TDX

VM-level hardware isolation

Federated Learning

Algorithm travels to data, not vice versa

Confidential GPUs

NVIDIA H100 — ML at scale inside TEE

Remote Attestation

Cryptographic proof of enclave integrity

USE CASE 2

Collaborative ML in Healthcare

DE Charité · FI UEF · FR INSERM

WP7 · T7.2 · UEF / CHA / INS

Privacy-Preserving Sleep Medicine Research

PROBLEM

Sleep disorder ML models (EEG, ECG, apnea data) need patient records from multiple hospitals across countries. GDPR makes cross-border sharing of clinical data extremely difficult.

TITAN SOLUTION

TEE secure enclaves allow hospitals to contribute encrypted clinical datasets. In Federated Learning mode, the algorithm travels to the hospital — raw patient records never leave the premises.

IMPACT

Better AI diagnostics for sleep-disordered breathing while maintaining full GDPR compliance. Validated across 3 institutions in 3 countries — a blueprint for the EU Health Data Space.

USE CASE 1

Agrifood Government Data Sharing

Aragón ES × Veneto IT

WP7 · T7.1 · ITA / SAR / VEN

Cross-Border Vineyard Disease Prediction

PROBLEM

Sensitive agrifood data (farmer field notebooks, CAP submissions, pest observations) sits siloed in two regional governments. Disease models need it — but sharing risks privacy & commercial harm.

TITAN SOLUTION

The Confidential EOSC platform aggregates data from both regions inside TEEs. ML models train on combined datasets; neither region ever sees the other's raw records. Blockchain logs every access.

IMPACT

Improved grapevine disease & pest prediction (Lobesia botrana, Downy Mildew, etc.) for 3.2M ha of European vineyards — while fully respecting GDPR and commercial confidentiality.

Impact & How to Engage

50%
efficiency gain
data processing

90%
GDPR compliance
target

>50%
reduction in
data breaches

3—>6
Platform's components
TRL level

Technologies Available

- Confidential Workload Manager (open-source)
- Secure MPC platform with TEEs
- Federated Learning orchestration
- Blockchain access control toolkit
- Data anonymisation toolbox

Collaboration Opportunities

- Join EOSC Working Groups with TITAN
- Pilot new data space verticals
- Co-publish research results
- Integrate TITAN APIs in your platform
- Open Call participation (cascade funding)

Standards & Community

- IETF RATS & TEEP WG contributions
- Linux Foundation CCC membership
- Gaia-X & IDSA alignment
- Input into 5+ ongoing standards
- EOSC Catalogue service registration

Let's Build Europe's Trusted Data Infrastructure Together

All TITAN software is open-source · Results published in EOSC Catalogue

DS4SKILLS PROJECT

DS4Skills

COMMON EUROPEAN DATA SPACE FOR SKILLS

DS4Skills – Project overview

Kosmas Alexopoulos

Laboratory for Manufacturing Systems & Automation (LMS), University of Patras

alexokos@lms.mech.upatras.gr

DataWeek, Oslo, 5 May 2026

Co-funded by the European Union

Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Health and Digital Executive Agency. Neither the European Union nor the granting authority can be held responsible for them.

What is DS4Skills?

DS4Skills
COMMON EUROPEAN DATA SPACE FOR SKILLS

A space for growth, where skills and innovation come together to shape your potential.

Co-funded by the European Union

36 months

26 partners

8 use cases

Mission: Creating a Human-Centric European Data Space for Skills while driving innovation, education, and employment across Europe.

Co-funded by the European Union

Motivation

- **The Challenge**
  - Skills, jobs, training, and qualification data are fragmented.
  - Personal skills data requires trust, consent, and GDPR compliance.
  - Data and services must be interoperable across countries and sectors.
  - Use cases must prove practical value and long-term sustainability.
- **EU relevance**
  - Supports the European Data Strategy and common European data spaces.
  - Contributes to Europe's digital skills and lifelong learning priorities.
  - Enables trusted data reuse across education, training, and employment.
  - Strengthens employability, mobility, and workforce transformation.

Funded by the European Union

About DS4Skills

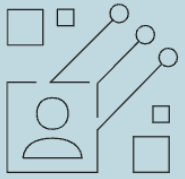
DS4Skills
COMMON EUROPEAN DATA SPACE FOR SKILLS

- A common European Data Space for Skills connecting key stakeholders across Europe
- Enhances digital skills and improves employment opportunities
- Provides practical benefits for both organisations and individuals
- Acts as a central hub for projects building a trusted data space for skills
- Supports innovation, education, and training policies across Europe
- Contributes to long-term EU goals for a skilled and adaptable workforce

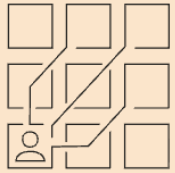
Co-funded by
the European Union

Main objectives

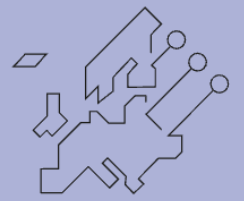
DS4Skills
COMMON EUROPEAN DATA SPACE FOR SKILLS



Enhancing Digital Skills



Supporting Employment Opportunities



Advancing Europe's Digital Transformation

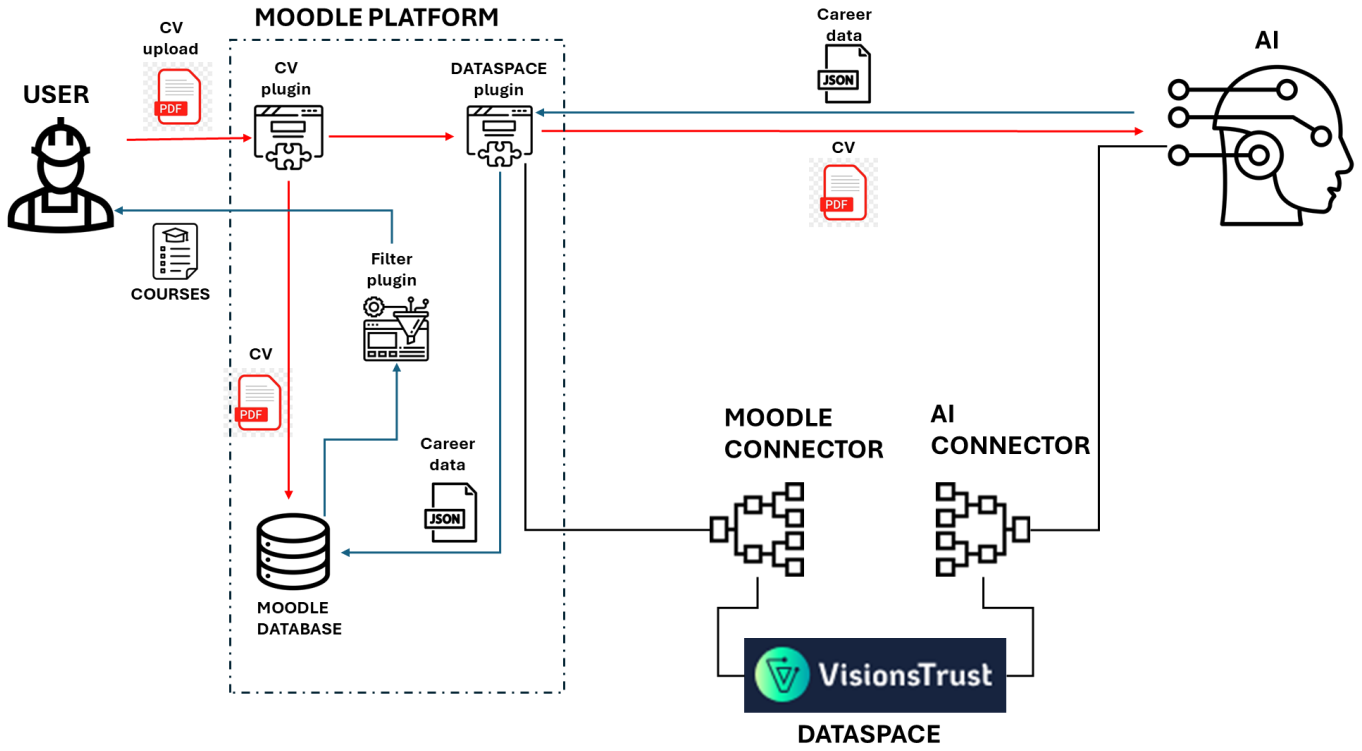
Manufacturing skills forecasting & matching
LMS use case

- **Skills profiling**
  - User provides CV, background, interests, and target roles.
  - Skills profile is prepared for data space services.
- **Data Space connection**
  - LMS connects users, Moodle content, and job data to the Skills Data Space.
  - PTX connector supports trusted and GDPR-compliant exchange.
- **AI service consumption**
  - External AI services extract and classify user skills.
  - ESCO is used to map skills to occupations and job profiles.
- **Learning and job matching**
  - Moodle courses are matched to missing or target skills.
  - Users receive suggested learning paths and job opportunities.
- **Progress and certification**
  - Learning progress and course completion are tracked.
  - Certificates or badges can update the user's skills profile.



Funded by the European Union

Concrete Impact

- **Technical outcomes**
  - Deployment of the European Skills Data Space across multiple use cases.
  - Interoperable exchange of skills, jobs, training, and qualification data.
  - Reuse of common data space building blocks, governance models, and taxonomies.
- **Industrial outcomes**
  - Stronger connection between education, training providers, employers, and public actors.
  - Better access to data and services for skills forecasting, matching, and upskilling.
  - Scalable use cases that demonstrate business value and long-term sustainability.
- **Societal outcomes**
  - Improved access to lifelong learning, reskilling, and upskilling opportunities.
  - Better alignment between labour-market needs and available learning pathways.
  - Contribution to Europe's digital skills, employability, and workforce mobility goals.

Employers, HR & training providers

- Personalised learning pathways bridging skill gaps
- Increased skill transparency
- Better recruitment and upskilling
- Precise skill matching
- Facilitated student job search and recruitment
- Reduced fraud

Manufacturing sector

- Personalised learning platform matching training to industry needs
- Bridging theory and practice
- Targeted upskilling for the manufacturing workforce

Educational institutions & students

- Easier access to EU universities learning opportunities
- Improved data quality via AI-powered classification
- Enhanced sharing of learning experiences and skills data

Funded by the European Union

Ecosystem Offering

- **Technologies**
  - European Skills Data Space infrastructure for trusted skills-data sharing.
  - Data space connectors, personal data intermediaries, and access-control mechanisms.
  - Reusable services for skills intelligence, matching, forecasting, and recommendations.
- **Datasets**
  - Skills, jobs, training, learning, and qualification-related data.
  - Individual profiles, résumés, learning histories, and career objectives.
  - Labour-market data, education offers, training opportunities, and organisational skills needs.
- **Pilot / use case**
  - Eight large-scale use cases across different European countries.
  - Real-world pilots for upskilling, reskilling, skills matching, and learning-path support.
  - Validation with learners, employers, education providers, and public-sector actors.
- **Standards and taxonomies**
  - ESCO and other common vocabularies for skills and occupation mapping.
  - Data governance framework, contractual rules, and access-right models.
  - Alignment with DSSC building blocks, interoperability principles, and GDPR requirements.

Funded by the European Union

Engagement

- **How stakeholders can reuse the project results**
  - Access trusted skills, training, qualification, and labour-market services.
  - Reuse governance templates, data-sharing models, and technical guidelines.
  - Replicate the use case methodology in new sectors, regions, or skills domains.
- **How stakeholders can contribute**
  - Training providers can publish courses, learning paths, and credentials.
  - Employers can share skills needs, job profiles, and validation feedback.
  - Data and AI providers can offer datasets, analytics, and matching services.
- **LMS use case engagement**
  - Join pilots, workshops, focus groups, and validation activities.
  - Test data space services in real operational or learning contexts.
  - Support long-term sustainability through adoption, partnerships, and service reuse.
